About us

# About us

# About us

As the core business segment of the company, energy-saving evaporation engineer, combined with its own core equipment MVR compressor, has now developed into a professional brand of this field in China. Sanfeng specializes in MVR evaporation system, multi-effect evaporation system, evaporation concentration, freezing separation for zero liquid discharge, and provides customers with process design, engineering design, 3D design, automation control, equipment manufacturing, project management, debugging services and other professional solutions.

**114,600**  
square meters of land area

**200+**  
sets of high-end equipment

# About us

Sanfeng Environmental Tech Co., Ltd. adheres to the production and management concept of "More Excellent Manufacturing", with "Promoter of ZLD, Practitioner of resource recovery" as the development concept, and continues to provide the most advanced technology, the best quality engineering, customized service, so as to achieve the goal of win-win development with customers. With technological innovation as the core competitiveness, it is committed to become a respected leading enterprise in the field of industrial wastewater zero discharge.

1958

Started machine manufacturing

2004

Entered the compressor market

2017

Developed the MVR evaporation system based on its core equipment

2019

Continuous development and growth

Broaden the business scope and entered into international market

# Manufacturing Strength

# Manufacturing Strength

- **Machining Capacity**

Sanfeng has more than 200 sets of various of advanced machining and testing equipment. Including five-axis linkage machining center, CNC planer type milling machining center, 10-meter CNC Horizontal lathe, 6.3-meter CNC vertical lathe, X-ray monitoring equipment, spark direct-reading spectrometer, high-precision dynamic balancing machine, automatic welding equipment and other advanced manufacturing and testing equipment.

# Manufacturing Strength

Machining capacity and advanced equipment:

Five Axis Vertical Machining Center

6.3m CNC Vertical Lathe

TK6920A/ 120\*50 CNC Floor Boring Machine

CNC Spinning Machine

3\*8m CNC Milling Machine

Titanium Processing Workshop

# Manufacturing Strength

Heat Exchanger

Crystallizer

Automatic Welding

Skid Mounted Evaporator/System

Three Coordinate Measuring Instrument

Automatic Welding

- **Our Honors**

Our company is a high-tech enterprise, honored with “hidden champion demonstration enterprise” in Hubei Province's pillar industry segmentation field, and “service-oriented manufacturing demonstration enterprise” of Hubei Province. With strong scientific and technological innovation ability, our company has been awarded the title of National level “little giant” enterprise.

Sanfeng has passed ISO9001 international quality management system certification, ISO14001 international environmental management system certification, and OHSAS18001 occupational health and safety management system certification. Qualified for pressure vessel production, our company's technology center is Hubei provincial enterprise technology center and Hubei blower industrial design center.
